Mathletics

https://login.mathletics.com/

Learn to play a new card game like solitaire.	Re-write the ending to your favourite fairytale.	Work on Study Ladder for 20minute blocks.	Rainbow sounds with your spelling words	Work on Prodigy for blocks of around 20minutes at a time.
Make a find-a-word with your spelling words. Test your family	Create something in the kitchen following a recipe with the help of an adult.	Go to https://www.abc.net.au/btn/classroom/ and watch the latest classroom episode of BTN. Write 5 new facts	A word of advice. What advice would you give to your favourite book character? How could you help them?	Practice your times tables, both from memory as well as using other strategies, (e.g. 6x7 is 5x7+7)
If possible, organise to meet your classmates in Mathletics to compete against each other in the arenas.	What can you find around the house to make an instrument out of? What noise does it make? Send us a photo	Go to https://www.kidsnews.com.au/ and check out the latest daily news events. You can choose green, orange or red. Read the article and answer questions	Continue to write as little as one paragraph a day. Write in the morning about what you want to do that day and /or write in the evening what you ended up doing.	Draw up 3 column notes for 10 spelling words. Write the word, draw a picture and find the meaning of each.
Write a letter to your teacher. Tell them about something you have cooked or taught your family. Then, send them the letter electronically.	What does the words in the acknowledgment to country mean to you and where would it be appropriate to say it?	Create a graph of the medals won at the Paralympic or Olympic Games of 5 different countries.	Help cook a meal for your family. Write your own procedure for the meal.	http://www.Australian.museum/learn/dinosaurs/ Research a dinosaur. Create its habitat with things around your house
Design a flag to represent your family. In your design, use different 2-D shapes as symbols. Make a key for your flag showing the meaning of each shape and colour that you used.	Look at all of the products in your bathroom, e.g. shampoo, hand soap, etc. Record the number of millilitres in each one. How many total millilitres do you have? How many litres do you have?	Watch the Newcastle Museum make a Bicarb Rocket. https://youtu.be/p9bzyF5u7Yk Create your own if you have the ingredients and write a report about how it turns out.	Find Go-Noodle and do some dances and other activities. Have a dance off against your parents. https://www.gonoodle.com/for-families/	Read, read, read and read some more! Breaking up the day with 10 - 20 minutes blocks of reading will add up so quickly
